slide
e materiali

Il modello non sta in memoria

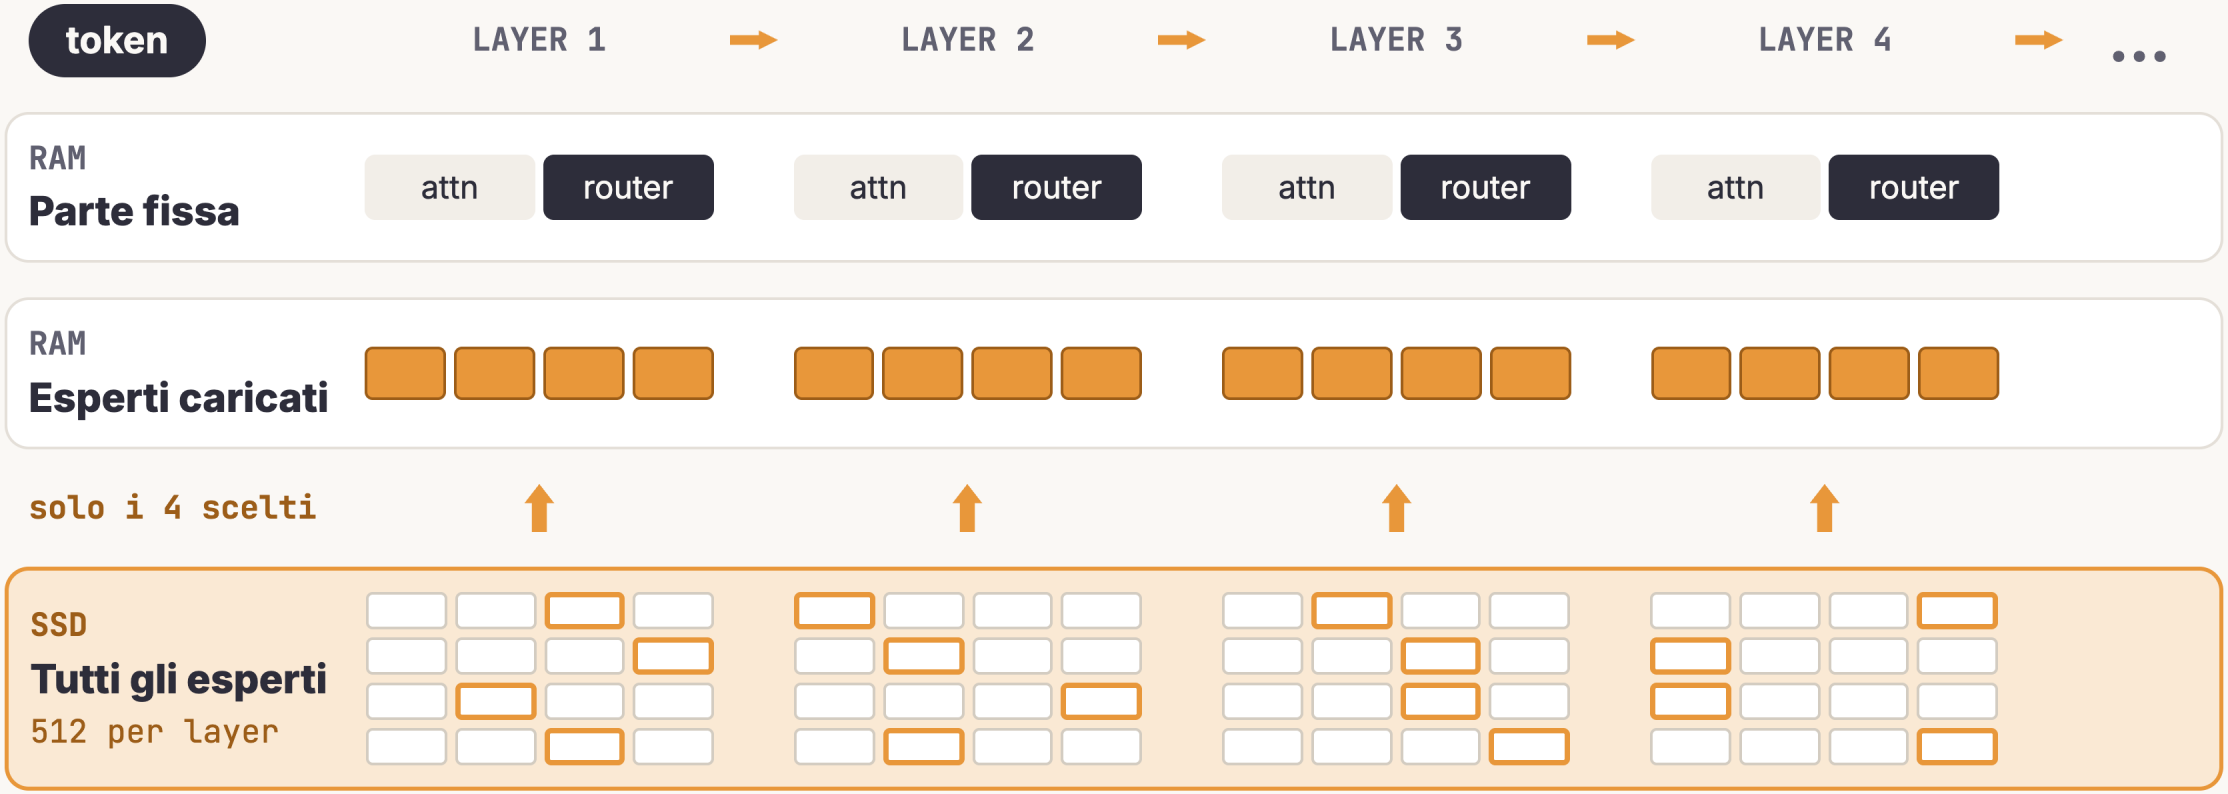

MEMORIA

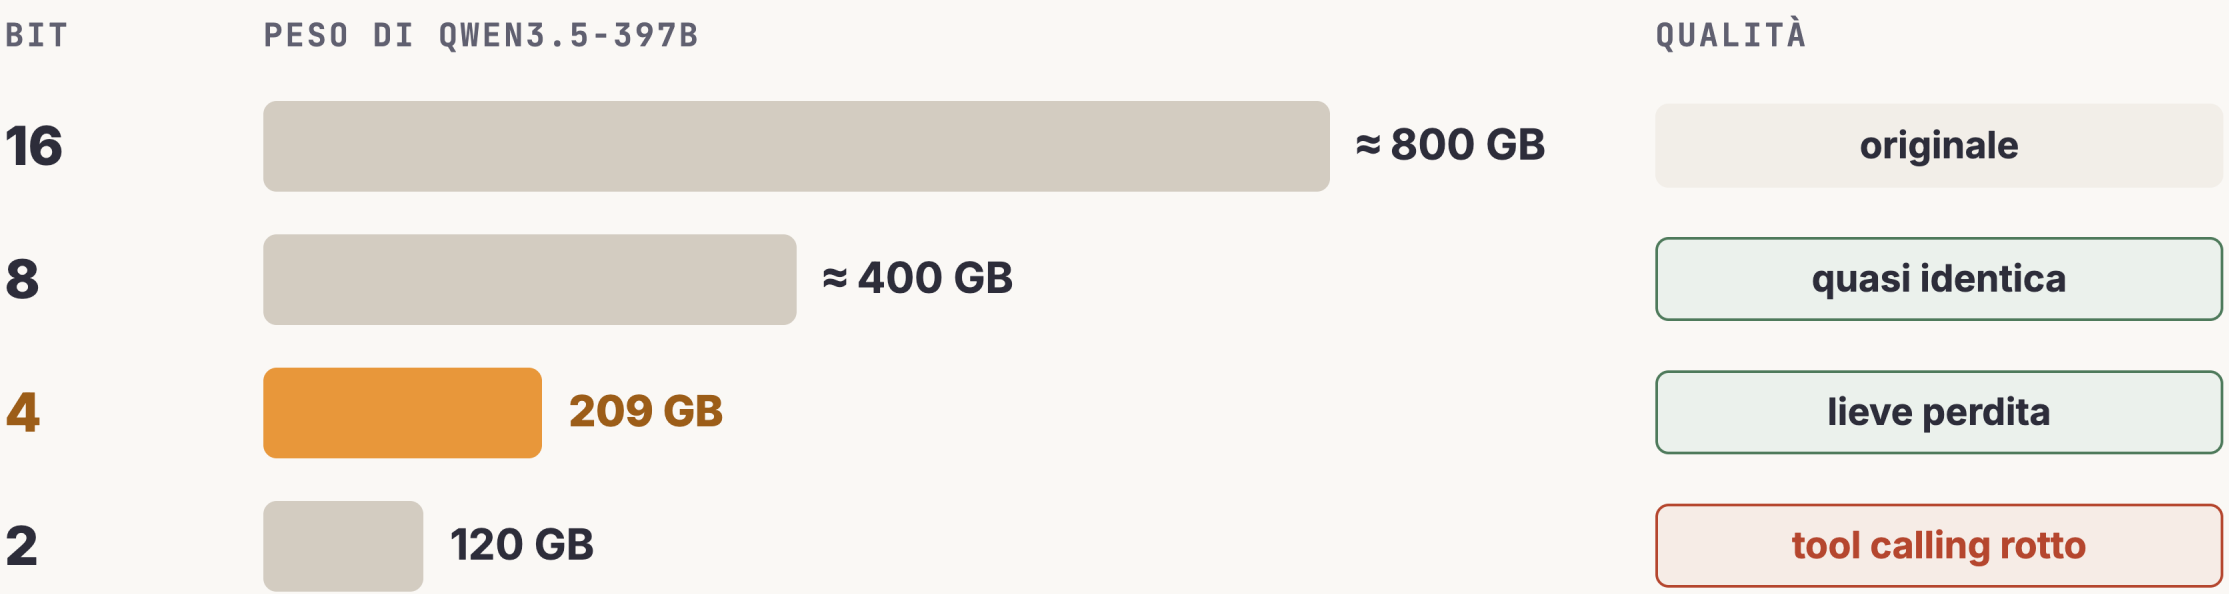

BANDA

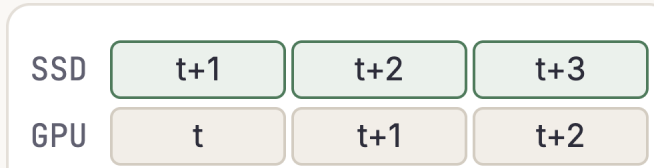

Fissa in RAM, esperti al bisogno

Meno bit, meno byte

Caricare prima di sapere

STRATEGIA	COME	GUADAGNI	PAGHI
On-demand		**nessun errore**	**attesa a ogni layer**
Speculativo		**niente attesa, se indovini**	**se sbagli, due letture**
Prerouting		**lettura e calcolo insieme**	**il modello cambia un po'**

5 · RIEPILOGO

Tre leve, tre prezzi

LEVA	GUADAGNI	PAGHI
Cache	meno letture da SSD	RAM tolta al resto
I/O	niente page fault	banda contesa con la GPU
Quantizzazione	meno byte per token	tool calling rotto

Non serve più memoria.
Serve sapere cosa tenerci.
